PROFESSIONAL SUMMARY

Hi, I'm Sanket. I'm studying Computer Science and Engineering (CSE) at Bennett University. I know how to code in C++ and enjoy working with this language. I'm always excited to learn new things and explore different technologies. I believe that trying new things helps me grow, and I'm eager to keep expanding my skills.

PROJECTS

To Do List

To Do List is like a helpful friend on your phone or computer that makes organizing tasks easy. You can set reminders, share tasks with others, and

use it anywhere. It's designed to save you time and make getting things done simpler and more fun.

Amigo (A Video Calling App)

Amigo helps people interact through video. It is a video calling app where you can start a call and share a link for others to join.

EZrent (Car Rental System)

The Car Rental Project is a smart system designed to make renting cars easier for people and help car rental companies manage their business better.

COURSES

AWS Cloud Practitioner Essentials

Amazon Web Services Training and Certification

2024
